Municipal District of Mountain View No. 310, Municipal Elections, 1925.

Public Notice is hereby given that a meeting of the electors of the Municipal District of Mountain View No. 310 will be held at the Agricultural School, Olds, Alta. at one o'clock in the afternoon on Saturday, the 21st day of February, 1925, for the discussion of the affairs of the district, and nomination of candidates for the office of Councillors, and that such nominations will be there and then received from the hour of three o'clock until the hour of four o'clock in the afternoon.

Given under my hand this 3rd day of February, A. D. 1925.

Hugh McLean,
Returning Officer.

Jutland W. C. T. U. Hold Memorial

On February 4th the home of Mr. and Mrs. C. R. Liesemer was the scene of a very happy gathering of about one hundred and five people to take part and listen to a splendid program entitled "The Francis Willard Memorial," in the interest of the W. C. T. U. The program consisted of readings, recitations, special songs and instrumentals. Among the many splendid numbers was a paper given on the life of Francis Willard. This paper showed what a well spent life will do even after such a life has passed from the stage of this present world. It surely matters much as to where our interests lie while we are living among our associates. If our life is to mean anything to our fellowmen.

An offering was received in the interests of the Prohibition work amounting to \$16.00. The program was concluded by God Save The King after which a splendid lunch was served. The rest of the moments were spent in a very enjoyable and social manner. The next meeting of the W. C. T. U. will be held at the home of Mr. and Mrs. Chas. Mardon on the first Wednesday in March, at 2 p. m. All members are requested to attend.

BURNSIDE

Mr. and Mrs. Frank Reek spent Sunday at Wm. Lyon's.
An Ontario buyer was through the district last week and purchased a number of horses.

Mr. A. B. Claypool, M. L. A. will address a meeting in the Jutland school on Saturday evening, February 14th, on the subject of the Live Stock Pool. The new Community Hall committee will hold their annual meeting before Mr. Claypool's address. Lunch will be served. Everybody welcome.

The surprise party at Frank Reek's on Monday was well attended and much enjoyed by those present.

Mr. and Mrs. Bert Pross and family spent Thursday at Noah Eckel's. Mr. Ralph Long spent Sunday with Mr. Geo. Metz.

Miller's Rink Wins Prizes at Olds Spiel

The Olds bonspiel which was held last week, furnished some fine sport and good games. A Didsbury rink skippered by J. R. Miller was successful in capturing two firsts and a fourth prize. Miller won the Grand Challenge from Samis, in an exciting thirteen end game, 16 to 12; also winning the P. Burns Trophy from Gooder in the last game of the bonspiel 20 to 10.

The Didsbury rink was composed of J. R. Miller, skip; F. Kauffman, 3rd; D. Shepard, 2nd; D. Edwards, lead.

Didsbury Hockey Team Visits Red Deer

The Didsbury hockey team journeyed to Red Deer on Saturday night and while they were defeated by a score of 9-6 in favor of Red Deer they report a good clean game and a good time. Cook scored three of the tally, Evans two and Reiber one.

The ice was in good shape and the referee had very little trouble, penalties being few.

AROUND THE TOWN

Don't forget the Women's Institute meeting on Friday the 13th.

Mr. Dan Klinck was a visitor in Airdrie and Calgary over the week end.

A dance will be held in Springdale School on Monday, February 16th with music by a three piece orchestra. Ladies please bring cake.

Quarterly services will be held in the M. B. C. church this coming Sunday by presiding elder A. Traub. Service commences at 10 a. m.

The semi-finals in the provincial High School debates will take place on Friday night, Minburn and Didsbury clash. Come and hear them.

Some dissatisfaction is being expressed by the farmers because they can get more for their hogs in the towns north and south of us than they can get in Didsbury. Why?

Special Evangelistic services commence this Wednesday evening in the M. B. C. church. Mrs. Sprott of Vancouver, B. C. is the special Evangelist. Song service commences at 7:30 p. m. All are invited to attend.

The C. G. I. T. held a very successful entertainment in the Opera House on Monday evening. There was a large attendance who enjoyed the varied and pleasing program put on by the girls under the leadership of Miss Olive Stock.

The W. C. T. U. will hold a Francis Willard memorial meeting at the home of Mrs. J. V. Berscht on Tuesday evening, February 17th, at 8 o'clock. A good program will be given. A special invitation is extended to husbands and friends.

A very enjoyable evening was spent at the home of Mr. Norman Tuggle last Wednesday evening, February 4th, when a large number of friends gathered to surprise him. The evening was spent in playing games and listening to the singing and music after which a delicious lunch was served.

The Harbor Board of Vancouver is sending to Mr. Sharpe a fine film of the grain handling facilities in Vancouver harbor. The picture will be shown on Wednesday the 18th at 8:30 along with Zane Grey's "The Border Legion." The usual price will be charged for the whole programme.

Talking about pigs Mr. Charlie Brown was the hero of a peculiar accident on Monday when bringing in a load of hogs to town. He was driving down the hill near Art Wahl's farm, west of the Dog Pound creek, south of town, when he struck glare ice and the wagon load of hogs tipped over the side of the hill turning completely upside down. There were nine pigs in the load but not one of them was hurt in fact no damage was done. Mr. Brown was extremely thankful to get off so lucky and as there happened to be plenty of help near the wagon and load was soon on its way to town again.

Illogical and Unsound

In giving consideration to the tariff solely as an economic question and quite apart from any partizan bias—which, let it be emphasized, should have no bearing on the subject—some attention may be devoted to a recent review of Canada's textile trade appearing in Eastern papers.

It is declared that with some 270 woollen and knitting mills scattered throughout the Dominion, business is worse than depressed; that, in fact, a serious situation faces this industry. Yet the textile industry is one of the protected industries of Canada. True, it claims that its tariff protection is not sufficiently great, and the chief burden of its present complaint is that, under existing conditions, the Canadian industry cannot compete successfully with the mills of Great Britain and the continent of Europe. So the tariff should be raised in order to restrict such importations into Canada or keep them out altogether.

But could the Canadian mills succeed if the tariff was made twice as high as it now is? According to the authority quoted in the review already referred to, Canadian mills are every bit as efficient as those of Yorkshire, that climatically Canada is well adapted to the business of spinning and weaving, and that our Canadian workmen and workwomen are equally well qualified for the work. Then what is the difficulty?

In the first place, it is stated that the sheep raising industry in Canada has been sadly neglected, that we should have twenty million sheep instead of two million, and in this connection it is pointed out that Great Britain in her small area supports twenty-four million. As a consequence Canadian mills are forced to import their raw materials, for which no less than \$35,000,000 was paid in 1922.

The second difficulty confronting the Canadian mills is said to be the cost of labor, and it is pointed out that wages paid in the textile mills of Great Britain are only one-half those paid in Canada, while on the Continent wages for these workers are only one-quarter of what is paid in this country, and, inasmuch as the labor bills in these mills approximate the cost of raw materials, that it is easy to figure out why Canadian mills cannot compete successfully with British and foreign mills.

There are two ways by which cheaper labor can be secured in Canada. One is by reducing the higher standard of living prevailing in Canada as compared with Great Britain and the Continent, but the Canadian workman and workwoman do not wish to have their standard of living lowered, nor do the people of Canada as a whole desire it. Such a retrograde step would never be welcomed in this country. It would be bad business for the whole Dominion.

The other way is to reduce the tariff on all those things which the workers must buy, and thus, while not reducing the standard of living, reduce its present abnormally high costs. If it did not cost the worker so much to live in decency, provide for and educate his children and make provision for his old age, he could afford to accept a somewhat lower wage. But so long as the worker has to pay top prices for everything he must buy, just so long must he be paid higher wages, and higher wages than in Great Britain and elsewhere where artificial means are not employed to protect industries and thereby increase the cost of living for everybody.

And how is the sheep raising industry in Canada to be encouraged? Much as they believe in tariff protection for themselves, the textile manufacturers would hardly welcome the imposition of high tariff duties on raw wool. Their complaint is that they have to pay too much now, and they want to be able to get the home-grown article in sufficient quantities at lower prices. But how is the Canadian sheep raiser to increase his flocks and produce large quantities of cheaper wool, and at the same time be forced to buy clothing, lumber, hardware, boots and shoes, food and other supplies in a highly protected market and pay the high wages necessary to his employees likewise forced to buy in that self-same protected market with its resultant high prices for everything?

Protection through tariffs is not a principle. It is artificial and unsound. What is one man's raw material is another man's finished product, and the moment protection is afforded to the one to help his particular branch of industry it works injustice on another, and when he, in turn, is protected, an injustice is perpetrated on a third person or industry. Protection thus becomes a vicious circle.

The textile industry furnishes a concrete example of this. Wool is the finished product of the sheep raiser. Protect it and you increase the cost of the raw material of the textile manufacturer. Woollen goods and yarns are the finished product of the manufacturer, but they are the raw materials, the necessities of life, of the average male and female worker. Protect them and the worker must demand more for his labor if he is to live in decency and comfort. And this labor is again the raw material of both the sheep raiser and the manufacturer.

Piling up tariff protection will never solve the difficulties of the textile industry, nor of any other industry. It is economically unsound.

An Unusual Damage Suit

U.S. Town Asks Compensation For Building Damaged By Airplane

The town of Elliot, Me., is asking compensation from the Federal Government because an army airplane recently crashed against the town hall and damaged it. Army headquarters received from the war department the claim sent to Washington. Major Stillwell, of the Fifth Infantry, stationed at Portland, Me., was ordered to Elliot to investigate.

The accident in which the town hall was damaged occurred when an aviator, flying from Mincola Field, N.Y., to Boston, became lost in thick weather. Flying close to earth he struck the Elliot town hall. The plane was damaged, but the aviator escaped injury.

WORRIES IN THE HOME

It is These That Cause Many a Breakdown in Health

Almost every woman at the head of a home meets daily with little worries in her household affairs. They may be too small to notice an hour afterwards, but it is the same little worries that break down the health of so many women. Their effect may be noticed in nervous headaches, fickle appetite, indigestion, pains in the side or back, and a sallow complexion. To those afflicted in this way Dr. Williams' Pink Pills, by improving and purifying the blood, bring speedy relief. Among thousands of weak women who have tested and proved the merits of this medicine is Mrs. Gustave Hutt, Bruxelles, Man., who says: "It is with profound thanks that I write to tell you what Dr. Williams' Pink Pills have done for me. Before I began taking these pills I was weak, and my blood thin and watery. I was so thin that I looked like a skeleton. I was troubled with headaches and indigestion, did not sleep well, and was terribly constipated. I decided to try Dr. Williams' Pink Pills and I soon found that they were just what I needed. Under their use my appetite returned, my food digested properly, and I slept better at night, and gained in flesh as well as strength. The result is that now I am a perfectly healthy woman, and there is no doubt that it is due to the use of Dr. Williams' Pink Pills, a supply of which I now always keep in the house, and I would advise other women to do the same."

You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Observatory For South Africa

Photographic Lens Will Be Third Largest in World

Dr. Frank Schlesinger, director of Yale Observatory, accompanied by two assistants, has gone to South Africa to establish a branch observatory there.

He is taking the new 26-inch photographic lens made especially for the new observatory, and as Dr. Schlesinger did not care to send it by freight, officials of the steamer on which he travels put it into a stateroom by itself.

"There is no really good observatory in the southern hemisphere and we are going to establish one," said Dr. Schlesinger. "It has not been determined yet, however, whether it will be at Johannesburg or at Bloemfontein."

The photographic lens that Dr. Schlesinger is taking to South Africa is the third largest in the world.

Why YOU Should Purchase a Canadian Government Annuity

Because in old age it will free you from the dread of poverty or of becoming a burden upon others;

Because it will bring you comfort and independence in your later years;

BECAUSE IT WILL GIVE YOU A LARGER RETURN FOR THE AMOUNT INVESTED THAN ANY OTHER LIFE INVESTMENT OF EQUAL SECURITY.

For example, if a man of 20 will pay to the Dominion Government the sum of \$5.31 a month until he is 60, the Government will agree to pay to him from 60 as long as he lives \$50 a month—a return equal to over 23 1/2 % on the total amount paid.

If he dies before 60, every dollar that he paid in, with 4% compound interest, would be returnable to his heirs. If he should die between 59 and 60, the amount so returnable in a cash sum would be \$6,230.00.

Such an Annuity may be of any amount from \$50 to \$5,000 a year, the cost being relatively the same. It is non-forfeitable, cannot be seized for debt, and is free from Dominion Income Tax. For full particulars fill out this Coupon and address it as directed.

FOR INSTRUCTION OF RURAL YOUTH IN AGRICULTURE

Prince Albert.—The Saskatchewan Government is considering making provision for giving boys and girls on the farms of the province some form of agricultural instruction.

This announcement was made by Hon. C. M. Hamilton, minister of agriculture, as a commentary on the results of the dairy cattle judging contests at the Saskatchewan Dairy Association convention here.

City boys scored heavily over their country cousins in the competitions and Mr. Hamilton told the contestants the fine showing made by the collegiate students demonstrated that it was not enough to have intelligence and ideals, but good training was also necessary. The government therefore had under consideration the provision of some form of instruction that would give the boys and girls on the farms the same careful instruction as those in the cities are now receiving at the collegiate institutes.

Professor Shaw said that the result of the competition did not mean that the country boy was not every bit as smart as the apartment block boy, but they had better training from well equipped agricultural experts.

There was no finer agricultural work carried on in the province and a number of the boys who had their first experience in judging at one of these contests had won honors for themselves and the province in national and international competitions and the brightest boys were generally the dairy boys, whose fathers were generally one, two or three jumps ahead of the other fellow.

Closer Butter Inspection

Want Legislation Passed in Saskatchewan to Protect the Consumer

Prince Albert.—A resolution sent in by mail to the dairy convention reported that in at least one city in the province, butter grading as low as 36 is sold as No. 1 butter, thus causing the consumer to lose confidence in government grading and the quality of creamery butter. To overcome this, it was suggested that legislation be enacted requiring that all print butter have the grade on the wrapper and that government butter graders have authority as inspectors to secure samples from retailers from time to time and see that the actual grade corresponds with the grade as shown on the wrapper. The resolution passed.

Decide on Reciprocal Treatment

Delhi, India.—A bill proposing reciprocal treatment for British dominions and colonies and the United States, which treat Indians as an inferior race, was adopted by the legislative assembly by a vote of 49 to 41. A bill was also introduced proposing simple punishment for seditious offenses.

British Surveying Palestine

Jerusalem.—A complete real estate survey of the Holy Land has been started by the British administration in Palestine. Many titles and boundary lines are in dispute, holding up the agricultural settlement, because Zionist settlers from other countries have been unable to purchase land.

May Reduce Price Of Soldier Settlement Land

Ottawa.—A revolutionary proposal as to soldier's land, held under the operation of the Soldiers' Settlement Board, is a prospective subject of legislation. Last year a committee of the house favored a rebate of interest and a marked easing up in regard to payments for stock equipment. This has been considered to go about it the wrong way. What is now preferred is the constitution of an authority, to which the soldier farmers may appeal, if they consider the amount they paid for their land is excessive, under present conditions. In the event of a case being established, the value of the land could be reduced and with it the obligations of the purchaser.

Nome Epidemic Under Control

No Extra Nurses Required is Message From Doctor

Seattle, Wash.—The diphtheria epidemic in Nome, Alaska, is under control, 29 cases have been treated with a portion of 300,000 units of anti-toxin which arrived from Nenana, Dr. Curtis Welch, acting assistant surgeon at Nome, telegraphed Dr. G. M. Magruder, in charge of the thirteenth district, United States Health Service, Seattle.

"I am not worried about the situation," Dr. Welch's message said. "I have used 30,000 units of anti-toxin. There are twenty-nine typical cases, thirty-five suspects, and five deaths to date. Send no nurses. There are four in hospital here and five others we can call in emergency."

New Canadian Loan Surprise To London

Placement of \$5,000,000 Six Months' Treasury Bills Unexpected

London.—In connection with the recent announcement by the Canadian Government of the proposed redemption at an early date of Dominion 4½ per cent. bonds of \$5,000,000, it was assumed here the government at Ottawa did not propose to renew the loan, but intended to provide for its redemption out of the recent heavy borrowing in New York. The stock market, therefore, was somewhat surprised to find a line of \$5,000,000 Canadian six months' treasury bills had just been placed here at a 4 per cent. discount in order to provide for the necessary maturity.

The anticipation that this portends the flotation here shortly of a sterling loan is not generally entertained.

British Publishers Ask For Postage Reduction

Contend Penny Rate Would Help Home and Export Trade

London.—That penny postage be restored in the United Kingdom was the request made by a deputation representative of the printing and paper making industries of Great Britain. The deputation contended that restoration of the penny rate would stimulate trade, reduce unemployment and help the British home and export trade. It was pointed out to the postmaster-general that sales of picture postcards in New Zealand had increased 25 per cent. since the New Zealand Government had reduced the postal rates.

The Saskatchewan School Trustees' Convention

Large Gathering is Expected When Convention Opens at Saskatoon

Regina.—The Saskatchewan school trustees' convention this year is being held in the Third Avenue Methodist Church, Saskatoon, February 25th, 26th and 27th. The executive expects the largest convention to date. President James F. Bryant is the authority for the statement that this year's programme is the best in the history of the association.

The following speakers will take part in the programme: Sir Clifford Sifton, Hon. Charles A. Dunning, A. E. Warren, of the Canadian National Railway, Professor Zimmermann, a speaker of international reputation, Col. Ralph H. Webb, Mayor of Winnipeg, will speak on the Hudson's Bay Route, Fred W. Bates, B.A., M.Sc., M. Latour, B.A., Hon. Sam Latta, J. S. Mills, M.A., J. H. Galloway, B.A., R. F. Blacklock, Malcolm MacBeth, editor of the Milverton Sun, W. M. Morris, secretary of the Ontario School Trustees' Association. It is expected also that Canon Cody, of Toronto, will speak.

A feature of the convention will be a debate on the question, "Resolved that in the opinion of this convention the municipal system of School Administration is superior to the present system." Affirmative speakers, R. McSweeney, J. M. Thomas; negative speakers, Joseph Needham, A. R. Smith.

All evening programmes will be broadcasted over the radio from the Saskatoon Radio Station.

Dominion Loan In London

London.—Appropos to the announcement that the Canadian Government is making arrangements on the London market to replace a shortly maturing sterling loan by six months' sterling treasury bills, the Times says: "We are within the sight of the end of the period in which New York has been the only market from where Canada could supply her financial requirements apart from those supplied from her local resources."

Photographing the Great

London.—The National Portrait Gallery, which is compiling photographs of the distinguished men and women of Great Britain, has found that more women than men refuse to pose for their photographs. Many of the leading British women also have refused to approve the photographs. Only one man in the collection wore a monocle, while being photographed. He was Austen Chamberlain.

Would Combine Provinces To Make Only Five

Quebec.—Believing that Canada was over-governed, C. E. Gault, Conservative M.L.A. for St. George, Montreal, advanced a novel scheme in the legislature. Mr. Gault thought a good way to help matters would be combining up some of the provinces, namely, putting three maritime provinces together in one province, Ontario and Quebec in one province, Manitoba and Saskatchewan in one province, and Alberta and British Columbia into one province. These, with Ottawa, would mean five governments in Canada, and that should be sufficient.

B.C. Officials Welcome Japanese Squadron

Premier Oliver Paid Tribute to Anglo-Japanese Treaty

Vancouver.—Confidence in the continued friendship of Japan and the British Empire as a guarantee of world peace was expressed by speakers at a banquet given by the Federal Government to Vice-Admiral Saburo Hyakutake and officers of the Japanese training squadron, in port here. Persons representing the official, military, naval and business life of the community attended the function, in addition to about 70 officers from the Japanese cruisers.

Premier John Oliver, speaking on behalf of the Provincial Government, paid tribute to the Anglo-Japanese treaty, which, he declared, had been a potent agency in maintaining world peace in past years.

Vice-Admiral Hyakutake expressed appreciation for the welcome extended the squadron, and thanked Canada for its contribution to the relief of Tokio and Yokohama after the earthquake.

Britain Will Protect Industries

Scheme Arranged to Avert Unfair Competition From Abroad

London.—Industries in Britain may henceforth secure protection if they prove to the satisfaction of the board of trade that they are suffering unfair and abnormal competition, and also demonstrate that the industry is managed efficiently and economically, but the period for protection will be limited by a finance bill wherein such protection is made legal. Moreover, no applications will be considered relating to food and drink. The foregoing summarizes a long white paper retelling the government safeguarding of industries policy and which has resulted in a mixed reception in the press.

To Secure Evidence

Detectives in Role of Guests at Principal Clubs in London

London.—Proprietors of the night clubs and habitues of these resorts suffered a jolt upon learning that Scotland Yard had its eye on them for weeks. Detectives disguised as guests, and attired in evening dress, have been in regular attendance at all the principal clubs, gathering evidence for the home secretary, Sir Joynson-Hicks, who is preparing a bill for parliament under which the police would have greater powers of supervision.

Sugar Factory For Raymond

Lethbridge, Alta.—Officials of the Utah-Idaho Sugar Company are arranging the details for the location of a million dollar sugar factory on this irrigated area, and a final announcement is expected shortly. The freight rate on the raw product has been satisfactorily settled between the sugar company, the Canadian Pacific Railway and the beet growers.

Gasoline Refinery Wrecked

Pawhuska, Okla.—Four persons were killed by an explosion that wrecked the gasoline refining plant of the Phillips Petroleum Co., a mile west of Webb City. The refinery was said to be the largest of its kind in the world.

Rich Families to Unite

New York.—The engagement of James Stillman Rockefeller, son of the late William G. Rockefeller, to Miss Nancy Carnegie, daughter of Andrew Carnegie, second, is announced. Two of the richest families in the world will be united by the marriage.

SURVEYING BY AIR IS CHANGING MAP OF CANADA

Ottawa.—Aerial photography in Canada has opened a new world to the map maker, A. M. Naraway, controller of surveys, topographical survey of Canada, told the association of Dominion Land Surveyors at the 15th annual convention here. Mr. Naraway outlined the work undertaken by the department of the interior in surveying by air. "Inaccessible forest or mineralized areas are now accurately mapped with ease, and at a very much reduced cost," he said.

Such rapid progress had been made during the past year that over 40,000 square miles had been successfully photographed in various parts of the country from Nova Scotia to Alberta. Maps of the entire areas were in the course of preparation, and would be issued early this year.

From the work already completed, it was known that so many changes in the shapes of lakes had been discovered, and so much additional information had been added, that the maps of various parts of Canada, especially those in forested areas, would be almost completely altered, and an entirely new impression of the country would be revealed.

Lives Lost In Snowslide

Avalanche in B.C. Demolishes Ranch House and Kills Two People

Nelson, B.C.—Two lives snuffed out, a ranch house destroyed, and a railway line closed for the season, are the results reported of Kootenay snowslides, following days of thaw and rain.

A snowslide at Queen's Bay demolished the ranch house of John H. Hoyle, killed Mr. and Mrs. Hoyle in their beds, and carried away the upper portion of the house, in which a son, John Hoyle, aged 30, and a woman servant had their rooms. Young Hoyle and the woman made their escape through the roof. The bodies of the aged couple were dug out later.

Steamer Lost In China Sea

Crew of 38 and 92 Passengers All Perished

Marseilles, France.—The steamer Haipong was lost with all on board in the China Sea last December, according to a report made by the captain of the liner Jerusalem, which arrived here Feb. 3 from Saigon, Indo-China. The Haipong's captain, officers and engineers, all of whom were from Marseilles, together with the crew of 38 natives and 92 passengers, all perished.

Eighty-four of the passengers were natives and eight were members of the Christian Mission of Indo-China.

Halibut Treaty Registered

Provides For Open Fishing Season On Western Coast

Ottawa.—The government has filed with the League of Nations its first contribution to "open diplomacy" in the registration at Geneva of the Pacific Halibut Treaty negotiated in 1923, and executed last year. The treaty provides an open season for halibut fisheries on the western coast.

Under the covenant of the League of Nations all treaties negotiated by members of the league are to be sent to it and made public.

Co-operative Dairying

Co-operative marketing has been discussed from many angles for several years but it is only in these last two years that any material benefit has taken place. The Wheat Pool, which was organized in 1923, and which has been operating so efficiently since, has demonstrated the value of commodity pool organization. The demand has been persistent for a commodity pool organization for the handling of the Dairy commodity. Thus a provisional Board has been established to work out the proposition.

The campaign has just commenced for the signing up of the volume necessary before the Dairy Pool becomes operative. The volume is approximately six million pounds of butterfat. It is realized quite well that this is the minimum that can be worked with effectively.

The provisional Board cannot determine the plan which shall be followed in handling the Dairy commodity because of the fact that they are not representative of the contracts signed. The permanent Board when elected will determine the system to be followed in marketing and manufacturing the commodity. The present Board have, however, determined four systems that might be followed in handling the commodity:

1. By purchase of creameries on a revolving financial basis, where a certain deduction would be made for capital payment on the plants and equipment.
2. By leasing creameries.
3. By arranging with companies operating creameries to manufacture on a cost plus basis, e.g. the actual cost of manufacturing the commodity at the creamery plus depreciation charges, interest on investment, and so on.
4. The Association may sell outright the volume signed up to the organization to the company or companies giving the highest price for the raw product. This scheme would only be carrying the system of co-operation part way.

We find that from experiences at co-operative creameries such as Viking, Wetaskiwin, Sedgwick, Delburne, etc., that from 1½c. to 3c. a pound bonus was paid last year to their patrons.

By co-ordinating the efforts of the four districts mentioned and securing still greater volume from other parts of the province, marketing the commodity through one agency, decidedly better prices can be secured by the producer. It must not be determined by the above statement that it is the intention of the committee to centralize the business to a small number of creameries. The business of the Pool must be carried on in a manner that will create volume to the creameries operating yet provide facilities which will be convenient to the producers throughout the province. This is a matter, however, for the permanent Board to decide.

If anyone should desire further information they should apply to the Pool office, 105 C.P.R. building, Edmonton.

A co-operative shipment of poultry to New York City, encouraged and handled by the Dominion Poultry Service, Alberta branch, brought good results. The shipment consisted of two refrigerator carloads of turkeys and the shippers received 25 cents a pound for their birds, the New York selling price being 41 cents a pound.

Among the interesting books of the season is "Canada's Great Highway; from the First Stake to the Last Spike," by J. H. E. Secretan, C.E. (published by Thorburn and Abbott, Ottawa). Dealing with the early history of the Canadian Pacific Railway, the volume contains racy reminiscences of life in construction days as experienced by the author, who was a member of the company's engineering staff.

WESTERN MANAGER

THE rapid expansion of the colonization work of the Canadian National Railways in Western Canada, and the excellent results obtained during 1924 under the direction of Mr. E. A. Field, Land Commissioner, have justified the formation of plans for the active extension of this work during 1925, and some staff changes. Formal announcement is now made that dating from January 16th, 1925, Mr. Dan M. Johnson is appointed Western Manager of this department with headquarters at Winnipeg, an appointment which will meet with very general approval throughout eastern and western Canada where Mr. Johnson is favorably known as a first class agriculturalist, stockman and business executive.

Born on the Kincaid farm at Headingly, near Winnipeg, in 1884, which farm was at that time managed by his father, Mr. Johnson in his early years received a very thorough training in agriculture, both theoretical and practical. His studies were pursued at Upper Canada College, Toronto, Ont.; Wyckoff College, Gloucestershire, England; Ontario Agricultural College, Guelph, Ont., and Toronto University, from which institution of learning he graduated in 1903 with the degree of Bachelor of Scientific Agriculture. From this date until 1915 he was busy on the land as a practical farmer at Myrtle, Ontario, and North Battleford, Saskatchewan, gaining in that period invaluable experience of the farmer's problems as they are encountered in actual operation. Having by this time acquired a reputation as a stock raiser, he was in August, 1915, appointed Market Representative of the Dominion Live Stock Branch at the Union Stock Yards, St. Boniface, and in 1918 Supervisor of Stock Yards, charged with the enforcement of the Live Stock and Live Stock Products Act of 1917, and further promoted in 1920 to be Chief of Stock Yards Service for the Dominion Government.

On July 1st, 1923, Mr. Johnson resigned his position with the Dominion Government to become Agricultural Agent for the C.N.R., and was appointed General Agricultural Agent on Feb. 1st, 1924. His wide experience with agricultural, live stock, and land settlement matters, and extensive acquaintance with those directly interested in such matters, will be of considerable assistance in the performance of his new duties, which, in view of the immense importance of active colonization work to western Canada and the Canadian National Railways, affords almost unlimited scope for his activity. Among other features of the work receiving Mr. Johnson's personal direction is that of the Employment Service for farm help which the Colonization Department has organized as a matter of placing newly arrived immigrants in farm labor.

Victoria Will Say it With Flowers.

In the shopping district of Victoria, below, the "Princess Kathleen," one of two new vessels which are to be placed in Vancouver, Victoria and Seattle service, is seen at the corner of the Pandey Gardens, which are one of the horticultural sights of the Capital City.

the gateway to a land of enchantment. Hundreds of miles of good motor roads thread Vancouver Island, through the virgin forest in which the biggest firs on the continent grow, winding round mountain peaks and running out again here and there to the shore line.

With its chief city, Vancouver Island is coming into its own as a Mecca for the pleasure and health seekers. For the convenience of the increasing number of tourists who visit the Island the Canadian Pacific Railway has built two of the most magnificent appointed vessels on the West coast, to ply between Vancouver, Victoria and Seattle, and for their recreation and pleasure a huge Crystal Garden is being built, to be completed early in spring and to feature the largest salt-water swimming pool on the continent. However, Victorians pride themselves on the fact that their chief attractions are not of an artificial nature which, in these days of publicity bureaus and advertising campaigns, is much more than can be said of many other fashionable resorts.

When Victoria, the evergreen city of the West bids you welcome, which it will whenever you choose to visit the capital city of British Columbia, it will "say it with flowers," and at most unexpected times and places will present bouquets for your appreciation throughout your stay, whatever the season may be.

What an extraordinary city this is. Though very young compared with many other cities on the Continent it has, no doubt through the agency of its temperate climate drawn about itself such a mellowed atmosphere as is usually associated with more ancient places. Whatever is offensively new is given a covering or a background of foliage and flowers and it soon fits into the general scheme of things Victorian. Even down in the business and shopping districts where there is much going and going you will find your flowers, suspended, of all

places, from brackets on the street light stands.

And yet it must not be thought that this is a city of gardeners alone although one does wonder in looking over the city and its suburbs that its citizens can find time for anything other than gardening. Those who do business do it in much the same way as it is done in other up-to-date cities of its size and, unless one happens to know them, the stores of Victoria are quite a surprise. As most of the merchandise sold comes over the cheaper water routes, tourists have found it most advantageous to shop there, to the benefit of the merchants and the city generally. On this account, as much as to take care of local requirements, large stores have evolved which may be fallen back upon if ever the sights and scenery pall.

But apart from its own immediate glories and attractions, Victoria is

"CAPTAIN BLOOD," a Vitaphone picture with J. Warren Kerrigan in the title role, is an adaptation of this thrilling novel.

SYNOPSIS

Peter Blood, a young Irish physician, is wrongfully condemned as taking part in the ill-fated rebellion of Monmouth against King James. With Jeremy Pitt he is sent to the Barbadoes as a slave and is bought by Colonel Bishop at the behest of Arabella, his niece. A Spanish galleon commanded by Don Diego de Espinosa y Valdez slips into port under false colors and captures Bridgetown. Peter Blood saves the life of Mary Traill and sends Arabella and Mary to safety back of the town. He then leads his fellow rebels-convict on board Don Diego's ship and they capture it while the Spaniards are feasting in the city. When Colonel Bishop, whose limited military defense had failed, realizes that the ship no longer threatens the town he goes aboard, where he is greeted by Peter Blood, now captain of the Spanish galleon, with Jeremy Pitt, Wolverstone and Hagthorpe as his aides. Wolverstone is for hanging Colonel Bishop to the yard arm, but Blood threatens to quit their leadership unless his orders are obeyed.

CHAPTER IX.—Continued

He paused. There was no answer. But they stood hang-dog and half-mutinious before him, save Hagthorpe who shrugged and smiled wearily. Mr. Blood resumed:

"Ye'll please to understand that aboard a ship there is one captain. So." He swung again to the startled Colonel. "Though I promise you your life, I must—as you've heard—keep you aboard as a hostage for the good behaviour of Governor Steed and what's left of the fort until we put to sea."

"But . . ."

"There is no more to be said, gentlemen. My name is Blood—Captain Blood, if you please, of this ship the Cinco Llagas, taken as a prize of war from Don Diego de Espinosa y Valdez, who is my prisoner aboard."

The officers went, though not without some hustling, regardless of the howlings of Colonel Bishop, whose monstrous rage was fanned by terror at finding himself at the mercy of these men of whose cause to hate him he was very fully conscious. As they were running close to the headland east of the bay, Peter Blood returned

PAINS IN BACK AND SIDES

Ended by Taking Lydia E. Pinkham's Vegetable Compound

Fusilier, Sask.—"For two or three days every so often I would have such pains in my back and sides that I could not do anything—could not even lie quietly in bed, and my head ached, too. I was this way about three years, but was worse after I was married. I was on a farm with not a house nearer than five miles and there was not a person to advise me, as my folks live in Manitoba. My sister-in-law told me about Lydia E. Pinkham's Vegetable Compound and told me to try it. I took her advice and have been thankful for it ever since. After taking the medicine for three months I can say it has helped me a lot and I am doing fine. I am glad to recommend the Vegetable Compound to others and you may publish my testimonial."—Mrs. HELEN BALANOFF, Fusilier, Saskatchewan.

Often some slight trouble will cause a general upset of the system. Such symptoms as nervousness, painful times, irregularity, backache and headache indicate some form of female weakness.

Women so bothered should give Lydia E. Pinkham's Vegetable Compound a trial. This dependable medicine has helped thousands of women and it is reasonable to expect that it will help you. Try it today. Your druggist sells this medicine.

to the Colonel, who, under guard and panic-stricken, had dejectedly resumed his seat on the coamings of the main hatch.

"Can ye swim, Colonel? It's a mercy for you I'm not by nature as bloodthirsty as some of my friends here. And it's the devil's own labor I've had to prevail upon them not to be vindictive."

It was the thought of Arabella Bishop that had urged him to mercy and had led him to oppose the natural vindictiveness of his fellow-slaves until he had been in danger of precipitating a mutiny. It was entirely to the fact that the Colonel was her uncle, although he did not even begin to suspect such a cause, that he owed

He lost his balance and tumbled into the sea

such mercy as was now being shown him. Colonel Bishop mastered himself and rose. Peter Blood gave an order. A plank was run out over the gunwale, and lashed down.

"Just take a little walk, Colonel, darling," said a smooth, mocking voice behind him.

Still clinging, Colonel Bishop looked around in hesitation. He cursed them aloud venomously and incoherently, then loosed his hold and stepped out upon the plank. Three steps he took before he lost his balance and went tumbling into the green depths below.

When he came to the surface again, gasping for air, the Cinco Llagas was already some furlongs to leeward. But the roaring cheer of mocking valediction from the rebels-convict reached him across the water, to drive the iron of impotent rage deeper into his soul.

CHAPTER X.

Don Diego

Don Diego de Espinosa y Valdez awoke, and with languid eyes in aching head, he looked round the cabin, which was flooded with sunlight from the square windows astern. Between the pain in his head and the confusion in his mind, he found coherent thought impossible.

He was beginning to torture his mind with conjecture, when the door opened, and to Don Diego's increasing mystification he beheld his best suit of clothes step into the cabin. The suit paused to close the door, then advanced toward the couch on which Don Diego was extended, and inside the suit came a tall, slender gentleman of about Don Diego's own height and shape. Seeing the wide, startled eyes of the Spaniard upon him, the gentleman lengthened his stride.

"Awake, eh?" said he in Spanish. "Who the devil are you?" he asked. "And what the devil are you doing in my clothes and aboard my ship?"

"My name is Blood—Captain Peter

Blood. This ship, like this handsome suit of clothes, is mine by right of conquest. Just as you, Don Diego, are my prisoner."

"And my son? What of my son?" he cried out. "He was in the boat that brought me aboard."

"Your son is safe; he and the boat's crew together with your gunner and his men are snugly in irons under hatches."

Don Diego sank back on the couch, his glittering dark eyes fixed upon the tawny face above him. He accepted the situation with the fortitude of a fatalist. The light-blue eyes played over him like points of steel.

"You are not afraid to die, Don Diego?"

"The question is offensive, sir."

"Would you be willing, sir, to earn life and liberty—for yourself, your son, and the other Spaniards who are on board?"

"To earn it, do you say? Why, if the service you would propose is one that cannot hurt my honor. . . ."

"Could I be guilty of that?" protested the Captain. "I realize that even a pirate has his honor. The only man among us schooled in the art of navigation is fevered, delirious, in fact, as a result of certain ill-treatment he received ashore before we carried him away with us. I can handle a ship in action, and there are one or two men aboard who can assist me; but of the higher mysteries of seamanship and of the art of finding a way over the trackless wastes of ocean, we know nothing. We desire to make for the Dutch settlement of Curacao as straightly as possible. Will you pledge me your honor, if I release you upon parole, that you will navigate us thither? If so, we will release you and your surviving men upon arrival there."

Don Diego strode away in thought to the stern windows. "I accept," he said.

CHAPTER XI.

Filial Piety

By virtue of the pledge he had given, Don Diego de Espinosa enjoyed the freedom of the ship that had been

"Will I say a prayer for your soul?"

his, and the navigation which he had undertaken was left entirely in his hands. He took his meals in the great cabin with Blood and the three officers elected to support him: Hagthorpe, Wolverstone and Dyke.

That Don Diego was not playing fair it was impossible to suspect. Moreover, there was no conceivable reason why he should not. "If this wind holds," he had told them at supper after he had announced to them their position, "we should reach Curacao inside three days."

For three days the wind held, and yet when the third night descended upon them they had still made no landfall. Captain Blood uneasily mentioned it to Don Diego.

"It will be for to-morrow morning," he was answered with calm conviction.

Captain Blood passed on, content, and went to visit Jerry Pitt, his patient to whose condition Don Diego owed his chance of life. It was this same Jerry Pitt who cast the first thought of suspicion. A trip on deck for a breath of fresh air and his navigator's interest in the night heavens moved him to point out the North Star and to lay the position of the ship to Captain Blood. But Don Diego's easy explanation satisfied his captor.

New to the seas of the Spanish Main and to the ways of the adventurers who sailed it, Captain Blood still entertained illusions. But the next dawn was to shatter them rudely and for ever.

Coming on deck before the sun was up, he saw land ahead, as the Spaniard had promised them last night.

Beating out aweather, against the gentle landward breeze he beheld a great ship on their starboard bow, that he conceived to be some three or four miles off, and—as well as he could judge her at that distance—of a tonnage equal, if not superior, to their own. Even as he watched her she altered her course, and going about came heading toward them, close hauled.

"There," said a soft voice behind him in liquid Spanish, "is the Promised land, Don Pedro."

He turned sharply to face Don Diego, so sharply that the sly smile was not effaced from the Spaniard's countenance before Captain Blood's eyes had flashed upon it.

"What land is that?" he demanded. "Will you have the effrontery to tell me that is the coast of Curacao. That land, you treacherous, forsworn Spaniard dog, is the island of Hispaniola."

"Ah, perro ingles. You know too much," he said under his breath, and sprang for the Captain's throat.

Tight-locked in each others' arms they swayed a moment, then together they went down upon the deck, the Spaniard's feet jerked from under him by the right leg of Captain Blood. The Spaniard had depended upon choking the life out of Blood, and so gaining the half-hour that might be necessary to bring up that fine ship that was beating towards them. But all that Don Diego had accomplished was to betray himself completely.

"Will I say a prayer for your dirty soul now, whilst I am in this position?" Captain Blood was furiously mocking him.

"Who will pray for your soul, I wonder, when that galleon comes to lie board and board with you? Do you know what ship it is? It is the Encarnacion, the flagship of Don Miguel de Espinosa, the Lord Admiral of Castile, and Don Miguel is my brother. It is a very fortunate encounter. The Almighty, you see, watches over the destinies of Catholic Spain."

There was no trace of humor or urbanity now in Captain Blood. His light eyes blazed; his face was set.

A Total Eclipse

Even in the publicity angle the girls have the edge. For instance, when she's portrayed as Mrs. Somebody on the society page, it always is pointed out that she was Miss Whoiz before her marriage, but he, poor bloke, wasn't anybody before he was married and since then he isn't half so much.—Buffalo Express.

LITTLE HELPS FOR THIS WEEK

The fruit of the Spirit is love, joy, peace, long-suffering, gentleness, goodness, faith.—Gal. v., 22.

Peace is more strong than war, and gentleness,

Where force were vain, makes conquest o'er the wave;

And love lives on and hath a power to bless,

When they who loved are hidden in the grave.

—James Russell Lowell.

Gentleness diffuses a blessed calm over the nature. Love is the atmosphere of heaven. Long-suffering and meekness counteract all those distresses—and they are innumerable—which arise from pride, anger and revenge. Peace is but the scriptural name for the entire result of combined and blessed satisfaction in the heart.—J. W. Alexander.

BABY'S WELFARE DURING FEBRUARY

February is one of the hardest months of the year on little ones. It is a month of cold, blustery days that prevent the mother taking her baby out for the fresh air so necessary to its welfare. Baby is consequently confined to the home. More often than not the rooms are overheated and badly ventilated and the little one catches cold or gripe. What is needed to keep the baby well is a gentle laxative that will regulate the stomach and bowels; banish constipation and indigestion and in this way will either prevent or break up colds and gripe. Such a laxative is Baby's Own Tablets. They are mild but thorough in action, are absolutely safe as they are guaranteed to contain no opiates or narcotics. They never fall to be of benefit to little ones and may be given to either the newborn babe or the growing child. The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Mineral Production Increases

Mineral production in British Columbia during 1924 was valued at \$48,693,392, as compared with \$41,304,320 in the previous year, according to a statement issued by the provincial minister of mines. All metalliferous minerals recorded increased values, while coal showed a decrease of some \$3,000,000 due to labor troubles.

Britain's Army Of Pensioners

Expenditure For Last Year Totalled £72,230,000

Notwithstanding the lapse of five years from the cessation of hostilities 57,261 fresh claims in respect of death or disablement in consequence of the Great War were disposed of in England during the year ended March 31, 1924.

Of the 15,113 claims admitted during the year 6,685 were in respect of death, the 11,788 first awards of pension being a decline of 7,088 from the previous year. Claims coming at the end of the year reached as high as 1,200 a week. The expenditure for the year totalled £72,230,000, and the total since 1914 was £532,230,000. In the last year's total, administration accounted for £3,452,000. The minister's report shows 9,255 artificial legs and 1,201 artificial arms supplied, many replacements being included, besides artificial eyes fitted to 3,370 pensioners. Other supplies issued are: 174 tricycle chairs, 127 invalid chairs, etc.

Latest Electric Invention

Boot Cleaner and Polisher is Successfully Demonstrated

A machine which will clean and polish boots at the rate of three a minute, or ninety pairs an hour, has just been invented.

"It is worked by electricity," states a press representative, who saw a demonstration in London. "Beside it were scores of soiled black boots and shoes, some with thick soles and some with thin, some with broad soles and some with narrow, and some with rubber soles, some with high heels and some with low, some large and some small, lace-up boots and button boots, and even a few elastic-sided boots.

"They were placed in file along a flat chute at one end of the machine. Then the inventor pressed a switch, and the boots began to move along the chute. They passed on to a running belt one after another, and each boot in turn cocked up its heel, pushed its toe into the tunnel, disappeared, and in a moment or two came out at the other end of the tunnel clean and polished.

"The machine will not take black boots and brown boots together."

HEART TROUBLE SHORTNESS OF BREATH

Mrs. Geo. E. Bowman, Morrisburg, Ont., writes:—"I am writing you a few lines to let you know of my experience with Milburn's Heart and Nerve Pills. "Two years ago I became very poorly with my heart and nerves and whenever I took the least little bit of exercise my heart would start to jump and flutter. I could not walk upstairs without having to sit down and rest before I was half-way up, on account of my breath becoming so short.

I commenced taking MILBURN'S HEART AND NERVE PILLS and in no time I felt a great improvement, and can now heartily recommend them to all those who are troubled with any affection of the heart. The Scribe's Prayer

By ROBERT SERVICE

When from my fumbling hand the
tired pen falls,
And in the twilight weary droops
my head;
While to my heart a still voice calls,
Calls to me to join my kindred of
the dead;
Grant that I may, O Lord, ere rest
be mine,
Write to Thy praise one radiant,
ringing line.
For all of worth that in this clay a-
bides,
The leaping rapture and ardent
flame,
The hope, the high resolve, the faith
that guides:

All, all is Thine, and liveth in
Thy name.
Lord, have I dallied with the sacred
fire!
Lord, have I trailed Thy glory in
in the mire!
E'en as a toper from the dram-shop
reeling
Sees in his garret's blackness, daz-
zling fair,
All that he might have been, and,
heartsick, kneeling,
Sobs in the passion of a vast de-
spair:
So my ideal self haunts me always—
When the accounting comes, how
shall I pay?
For in the dark I grope, nor under-
stand:
And in my heart fight selfishness
and sin:

Yet, Lord, I do not seek Thy help-
ing hand;
If hap'ly I may yet my own sal-
vation win,
Let me through strife and peniten-
tial pain
Onward and upward to the heights
attain.
Yea, let me live my life, its mean-
ing seek;
Bear myself fitly in the ringing
fight;
Strive to be strong that I may aid
the weak;
Dare to be true—
O God, the Light, the Light!
Cometh the dark so soon! I've
mocked Thy word,
Yet do I know Thy love: have
mercy, Lord.

The Welcome Sign

"NOBODY asked you, sir," said the coy
maiden. And in matters of buying,
as well as in affairs of the heart, most
people like to be "asked." Often, indeed,
they insist on a proper invitation.

He is a wise merchant who keeps the welcome sign
constantly before the community in the form of
ADVERTISEMENTS in the home paper. There
everybody sees it—for ADVERTISING is "the light
of directed attention."

Speak up. Light up. Hundreds of good customers
are listening for your message and watching for your
welcome sign in
